## III. INSTRUCTIONS

1. A document shall be deemed to be in your control if you have the right to secure the document or copy thereof from another person or public or private entity having possession

or custody thereof. If any otherwise responsive document was, but is no longer, in existence or in your possession, custody or control, or has been lost, discarded or destroyed, said document shall be identified as completely as possible including, but not limited to, the following information:

- (h) the type(s) of information contained in the document; and
- (i) the identity of all persons having knowledge or who had knowledge of the contents of the document.

2. Unless otherwise indicated, the documents to be produced include all documents prepared, sent, dated or received, or those which otherwise came into existence at anytime during the relevant period described herein.

3. (a) Where an objection is made to any document request under Fed. R. Civ. P. 34, the objection shall state with specificity all grounds. Any ground not stated in an objection within the time provided by the Federal Rules of Civil Procedure, or any extensions thereof, shall be waived.

(b) Where a claim of privilege is asserted in objecting to any document demand, or sub-part thereof, and an answer is not provided on the basis of such assertion:

(i) the attorney asserting the privilege shall in the objection to the document demand, or sub-part thereof, identify the nature of the privilege (including work product) that is being claimed and if the privilege is being asserted in connection with a claim or defense governed by state law, indicate the state's privilege rule being invoked; and

(ii) the following information shall be provided in the objection, unless divulgence of such information would cause disclosure of the allegedly privileged information:

(A) for documents: (1) the type of document; (2) general subject matter of the document; (3) the date of the document; and, (4) such other information as is sufficient to identify the document for a subpoena duces tecum, including, where appropriate, the author of the document, the addressee of the document, and, where not apparent, the relationship of the author and addressee to each other;

5. This request is continuing and all documents coming into your possession, custody or control which you would have been required to produce had they been available at an earlier time shall be produced forthwith in accordance with the Federal Rules of Civil Procedure.

6. Each document requested herein is requested to be produced in its entirety and without deletion or excisions, regardless of whether you consider the entire document to be relevant or responsive to these requests. If you have redacted any portion of a document, stamp the word "redacted" on each page of the document which you have redacted. Redactions should be included on the privilege log described in Instruction 3.

7. The fact that a document is produced by one defendant does not relieve any other defendant of the obligation to produce his or its copy of the same document, even if the two documents are identical in all respects.

8. In producing documents, you are requested to produce the original of each document requested together with all non-identical copies and drafts of that document. If the original of any document cannot be located, a copy shall be provided in lieu thereof, and shall be legible and bound or stapled in the same manner as the original.
